

To Whom It may concern,I respectfully urge the FCC to reject the NAB's petition 04-160. As I understand the petition to be, the NAB wants the government to stop satellite radio from broadcasting locally oriented content. I live in an area with poor radio reception which is why I chose to pay for satellite radio. Satellite Radio's weather and traffic stations have proven to be invaluable to me. I drive often from Connecticut over to New York State or to Massachusetts to see my nieces and nephews. Satellite radio's traffic stations have helped me avoid huge delays which would have taken time away from being with my family. Why would anyone in their right mind want to stop such a wonderful service?
Sincerely,
James Haddock
